

## Full-Stack Account-Servicing for Any Organization

### *servicer edition*

Servicer Edition is designed as a comprehensive set of software technology tools that may be leveraged by **any organization** to provide **account servicing** (as a service) to its customers.

Because the suite of services is integrated, businesses can better leverage customer relationships while simplifying their internal technology buying decisions.

Servicer Edition can be cost-effectively implemented by organizations of all sizes and is especially beneficial for businesses that specialize in account servicing. Businesses that provide **mortgage** and **consumer loan processing and servicing** can not only leverage a robust and tightly integrated core software suite, but they are also able to tap into resources such as **bookkeeping, analytics, collections** and **inbound/outbound call center services**. And since the suite allows businesses to pick and choose from an array of products and services offered, they are able to expand their offerings quickly and cost-effectively.

Since our native toolset includes online banking, mobile banking and a robust content management system, our clients can offer those member-facing solutions to more effectively service their customers.

Servicer Edition is full service account processing with access to elective services to enhance your customer's experience:

- **Analytics Toolset**
- **Audit & Compliance**
- **Business Continuity**
- **Client Services & Education**
- **Collections Contact Center**
- **Credit & Debit Card Services**
- **Data Strategies**
- **Imaging Document Solutions**
- **Lending Services**
- **Marketing**
- **Mobile and Digital Strategies**
- **Network & IT Services**
- **Operations Support**
- **Records & Information Management**
- **Sales Support**
- **Software Integration**
- **Technology Implementation Specialists**
- **Vendor Management**
- **Web Services**

What about adding online, mobile banking and mobile app. capabilities to your account service experience?

Do you need marketing and collaborative sales technologies to help your clients market to their customers?

Perhaps you've already built a great business, but it's limited by your current situation having to navigate multiple vendor servicing platforms, or by only being able to offer a very narrow band of services for which you need to expand?

Servicer Edition includes a broad suite of products and services that allows you to be creative, better leverage member relationships and simplify future technology decisions.

Servicer Edition offers a comprehensive account processing system in tandem with a collaborative CUSO business methodology to constantly develop and deliver new solutions my customers need.

Liz Winninger, CEO, Xtend

By leveraging various 3rd party integrations, Servicer Edition has provided Life Asset important tools for automating various data transfer processes that were previously performed manually. I am continually impressed by the expertise dedicated to helping me to seek innovation to improve our operations and evolve the business.

Markus Larsson, Founder and Executive Director, Life Asset

Servicer Edition reduces the need to navigate multiple platforms finding the right solution for my members. Servicer Edition has the additional features we needed to expand our service levels.

Geoff Johnson, CEO, CU\*Answers

Using the Servicer Edition platform to update key mortgage data makes everything more efficient. And not only is it effective internally, but members are able to make payments and see their mortgage loans via the Servicer Edition online banking and mobile app channels, improving the overall member experience.

Jamie York, CEO, Neighborhood Mortgage Solutions
